EC2

IAM Identity Center

The user "Vijay" was successfully added.

The user will receive an email with a link to set up a password and instructions to connect to the AWS access portal. The link will be valid for up to 7 days. You can grant this user permissions to accounts or applications so that they can access their assigned AWS accounts and cloud applications when they sign in to the AWS access portal.

This screenshot shows the AWS IAM Identity Center console. A success message at the top indicates that a user named "Vijay" has been successfully added. Below this, the "Users" section is displayed, showing one user named "Vijay" with the display name "Mani Bharathi B". The user is listed as "Enabled" and has no MFA devices assigned. The interface includes a sidebar with navigation links like Dashboard, Users, Groups, Settings, Multi-account permissions, and Application assignments. At the bottom, there are links for CloudShell, Feedback, and weather information (30°C Haze). The status bar at the bottom right shows the date and time (11-11-2023, 11:29 AM) and language settings (ENG IN).

The screenshot shows the AWS EC2 service dashboard with the 'Elastic IP addresses' section selected. A success message at the top states: 'Elastic IP address associated successfully.' followed by 'Elastic IP address 16.170.131.194 has been associated with instance i-0f9c4417203f2b6e3'. Below this, a table lists the single associated elastic IP address. The table columns are 'Name', 'Allocated IPv4 addr...', 'Type', 'Allocation ID', and 'Reverse DNS record'. The entry shows 'Elastic' as the name, '16.170.131.194' as the allocated IP, 'Public IP' as the type, 'eipalloc-0cd22a9d352e2bbfe' as the allocation ID, and an empty field for reverse DNS. To the right of the table, detailed information is provided for this specific IP address, including its association ID, private IP address (172.31.25.145), and public DNS name (ec2-16-170-131-194.eu-north-1.compute.amazonaws.com). The left sidebar shows other EC2 management options like Instances, Images, and Elastic Block Store.
